

116

With F.M.L.

The front-page columnist for the Dallas Morning News died last Sunday.

Paul Crume, writer of "Big D" since 1952, writes no more.

His was one of the hardest jobs on any newspaper, to be readable every morning, either with essays or bits of reportage, including fillers of silly signs people told him about. He was widely quoted.

Crume's column was a tradition in Dallas. People enjoyed his stuff even when he was serious.

A writer who can stand that much early morning exposure and laugh at his own approaching death is special.

His November 13 column said: "The question of constitutionality of dying raises some interesting questions about human law. We have searched the constitution diligently and can find in it no constitutional right to be born. We are talking here about the U. S. Constitution; nobody can find anything in the Texas constitution. Since a man has no constitutional right to be born or to die, his whole life appears to be unconstitutional."

He once said one of his greatest motivations for completing a column every day was a copyboy standing at his desk waiting for copy to take to the composing room.

What he sent to the linotypes for 23 years was widely read. That is recognition needing no constitution and no amendment.

116-116-116

I appreciate Crume's battle with deadlines and particularly the fatal one. A columnist is somewhat a masochist in print who reveals himself for the reader to share and dissect.

A writer like Crume used the direct language of his background, West Texas, which often was the subject of his columns. He was probably wiser than to try too many "think pieces" which not only test vocabularies, but often require more space

B'holts School Suit Dismissed

U. S. District Judge Jack Roberts at Waco has dismissed a suit against the Buckholts Independent School District alleging discrimination. He also has ordered the plaintiff, Frederick Griffin, to pay court costs.

Griffin filed the suit in the Waco court in August. He contended he, a black, was replaced by a white teacher although he has a masters degree in mathematics.

Griffin was hired as a replacement for a teacher who had a stroke. He contended in the suit that he was not rehired because he was the first black teacher to be hired in the district.

Did You Haul Parish Dog From Elgin?

The Herald has received a unique plea from a priest at Sacred Heart Church in Elgin, to wit:

"On the night of the Elgin-Cameron football game (Oct. 24), the parish dog disappeared. He was a friendly dog and frequently jumped into any car whose door was open. We wonder if perhaps he might that evening jumped into a Cameron car."

"Sam (the dog) is very friendly and has one eye with a white spot on it. Sam was also neutered and was yellowish in color and about the size of a collie."

If you have any information concerning the dog please call Sacred Heart Church, Fr. Everett Trebotoske, 512 285-3536 or drop a card to Box 431, Elgin, Texas 78621.

than a regional metro daily affords Page 1.

He was perhaps a Texian Will Rogers, who used to write brief daily columns for syndication in the 1920s and 1930s. Rogers' humor was folksy and incisive like Crume's.

It's not easy to say something in direct language. Paul Crume worked at writing, I imagine, and he probably spent a lot of time wondering what to write, maybe more than writing it. I do.

Hunting Mishap Sends Rockdale Man To Hospital

A 64-year-old Rockdale man was in serious condition at Scott and White Hospital in Temple Saturday after accidentally being shot in a hunting accident Saturday four miles east of Rockdale.

Milam County Sheriff Carl Black identified the victim as Woodrow Burgess of Rockdale.

Burgess was hunting quail with an 11-year-old unidentified boy about 8:40 a.m. Saturday in the vicinity of the dump grounds just off US 77 when the accident occurred, Black said.

He said the boy had just fired at some birds with his shotgun and in his excitement he accidentally threw the gun in front of him.

When the shotgun hit the ground it discharged and struck Burgess in the leg and behind the ear in his head, Black said.

The victim was taken to Scott and White by the Rockdale Ambulance Service.

2-Car Accident Injures Two

A two-car accident at 4th and Crockett at 4:30 p.m. Sunday resulted in minor injuries for two persons. They were identified as Mrs. Alfred Schories and Alfred Schories, of Houston. They were treated and released from St. Edward Hospital.

Driver of the other car was Sandra McCasland also of Houston, who was not injured.

Community Service Set For Thanksgiving

The Cameron Area Ministerial Association will sponsor a Community Thanksgiving Service on Sunday, Nov. 23 at 7 p.m. at the First Presbyterian Church in Cameron. The public is invited.

Rev. Stanley Vodicka, pastor of First United Methodist Church, will be the speaker. Special music will be presented by the Buckholts Youth Choir and the O. J. Thomas Junior High School Choir.

Participating members of the Association include Rev. Ernest Helsley; Rev. Darryl Proffitt, Association president; Rev. Vernon Dietrich; Rev. John Geiser; Rev. Henry Weston, Association secretary - treasurer; Rev. James Mitchell; Rev. John Ho-

CofC Asks Planning For Center

The Cameron Area Chamber of Commerce is spearheading an effort to create a civic center for Cameron, according to information given to city councilmen at a regular meeting Tuesday evening.

Narvie Caperton appeared for the Chamber and asked that council appoint a steering committee for a civic center. He said a Chamber

committee has been working on the idea for the past 9 months.

Council took the request under advisement for a report at the next council meeting.

In other business, council studied a proposed street program (see story, this page), heard a report from the Community Development Agency, and tabled the second reading of an ordinance granting Bell Telephone a rate increase.

Mayor Gene Blake said the city attorney and mayor will meet with Bell Manager Dennis Richter and Bell attorneys to resolve the city's request that the phone company pay its franchise tax in quarterly payments. Richter had said this was impossible.

Council also voted to give the American Legion a 10-year renewable

Ex-Cameron Publisher Dies In Austin

Ben F. Reichert, 71, of Austin, former editor and publisher of the Cameron Enterprise, died Friday afternoon in Austin while driving his car after an apparent heart attack.

Funeral was at 2 p.m. Sunday in the Weed-Corley Funeral Home in Austin with the Rev. Jack Hooper officiating. Burial was in the Austin Memorial Park.

Mr. Reichert had been a resident of Austin for the past 21 years. He was born in Milam County and formerly lived in Cameron, where he was editor and publisher of the Cameron Enterprise which was absorbed after burning down by The Cameron Herald.

He served as a member of the Cameron city council in 1946 and 1947 and was also district governor for the Lions International in 1946. Mr. Reichert was retired from the Texas Highway Department's right-of-way division.

Surviving are his widow, Mrs. Iva Wilson Reichert of Austin; two sons, Dr. John W. Reichert of Lubbock and David Franklin Reichert of San Antonio; one brother, H. Clay Reichert of Lake Charles, La.; one sister, Mrs. Elizabeth Meek of Rogers; and three grandchildren.

City OKs Plan For Streets

A major plan for street work in Cameron was outlined for city councilmen Tuesday evening, and the city passed a resolution giving the go-ahead for work. The plan was submitted by Monroe Fuchs, chairman of the City Planning Commission's street committee.

The committee has been studying the street problem in the city for a number of months before submitting the plan. A committee of three coun-

cilmen also worked with the commission on the plan.

The plan calls for paving 74 blocks in the Green Addition after storm drainage is completed for that section. Streets to be paved include blocks on Davis, Cleveland, Harding, Hoover, Golf Links Rd., 13th, 14th, 14 1/2, 15th, 16th, 17th, 18th, 19th, 20th, and 12th.

Maintenance in that area adds \$7,200 to the \$58,232 cost and in-

cludes reworking soft spots on Jackson from 6th to 18th and applying a seal coat.

Recommendations in the plan:

1. City set up revolving street fund of approximately \$50,000 a year for streets.

2. Assessment type program to be used with a finance company to handle details and make necessary funds available. All costs to be prorated 1/3 each property owner and city.

Where 100 percent have agreed to pay their share at the current assessed program rate to be added to the program; engineering and drainage program completed.

3. All engineering and planning by the city before work begins.

4. That curb and gutter be installed on all paved streets.

5. Six inch native gravel be installed for base and 1 1/2 inch asphalt to be installed as paving.

6. Set up all streets on 30 foot width so as to equalize front foot cost to all property owners. Street to be measured from back of curb.

7. Prorate costs of street intersections to city and property owners.

8. Add cost of engineering to front foot cost, estimated at 29 cents running foot.

9. Existing paving -- allow percentage of costs where new paving is installed based on engineers findings.

10. Standard curb and gutters installed using city engineers instructions and needing relocation to be done at city cost.

11. That city should require all utilities cutting a street to install lines, remove all materials from job site, replace with gravel, and proper compaction before re-installing.

12. Set up a program of maintenance on present paved streets, using seal coat and do as many streets as possible until all streets in Cameron are completed.

13. City of Cameron should proceed with all haste possible to get the street program operational.

Other information offered by Fuchs included:

--The committee is advised by the Texas Securities Corporation that it will require from 4 to 6 months to get program operational after engineering has been completed and bids for work in hand.

--Property will be assessed only after proper hearing, and proper notices have been inserted in the newspaper.

--Citizens to be advised that price of materials may fluctuate and change in front foot would be adjusted accordingly from one program to another. (No change after program cost set for a program.)

--Streets not practical to pave and install curb may permit double penetration on same program.

Noon Lions To Host Rotary, FFA President

The Texas Future Farmers of America (FFA) President for 1975-76, Mark Ellison of Rosebud, will be guest speaker for a joint Lions-Rotary Thanksgiving luncheon and program set for noon Monday at Methodist Fellowship Hall.

Among special guests will be Bo Tittsworth, Yoe High School FFA advisor and vocational - agriculture teacher. Rod Holcombe will MC the program as president of the Noon Lions Club, which is hosting the affair.

Mark is the son of Dick Ellison and recently graduated from Rosebud-Lott High School. There he served as class officer and a member of the student council. He has held a number of FFA offices, including chapter president, district vice-president, and Area VIII president.

Ellison, 18, was elected president of the Texas FFA in its convention in Houston last summer. Since then, he has traveled thousands of miles on behalf of the FFA. He is taking a year out of his life to devote to the FFA. He also recently played a key role in the national FFA convention at Kansas City.

It has been 20 years since a Central Texan has been state FFA president. By the time his year as president is over, Ellison will have traveled probably 50,000 miles or more.

He is the traveling public relations representative of the Texas FFA Association. He visits schools, gives assembly programs, visits chapters and speaks to civic clubs throughout the state. He also recently attended a national FFA meeting in Washing-

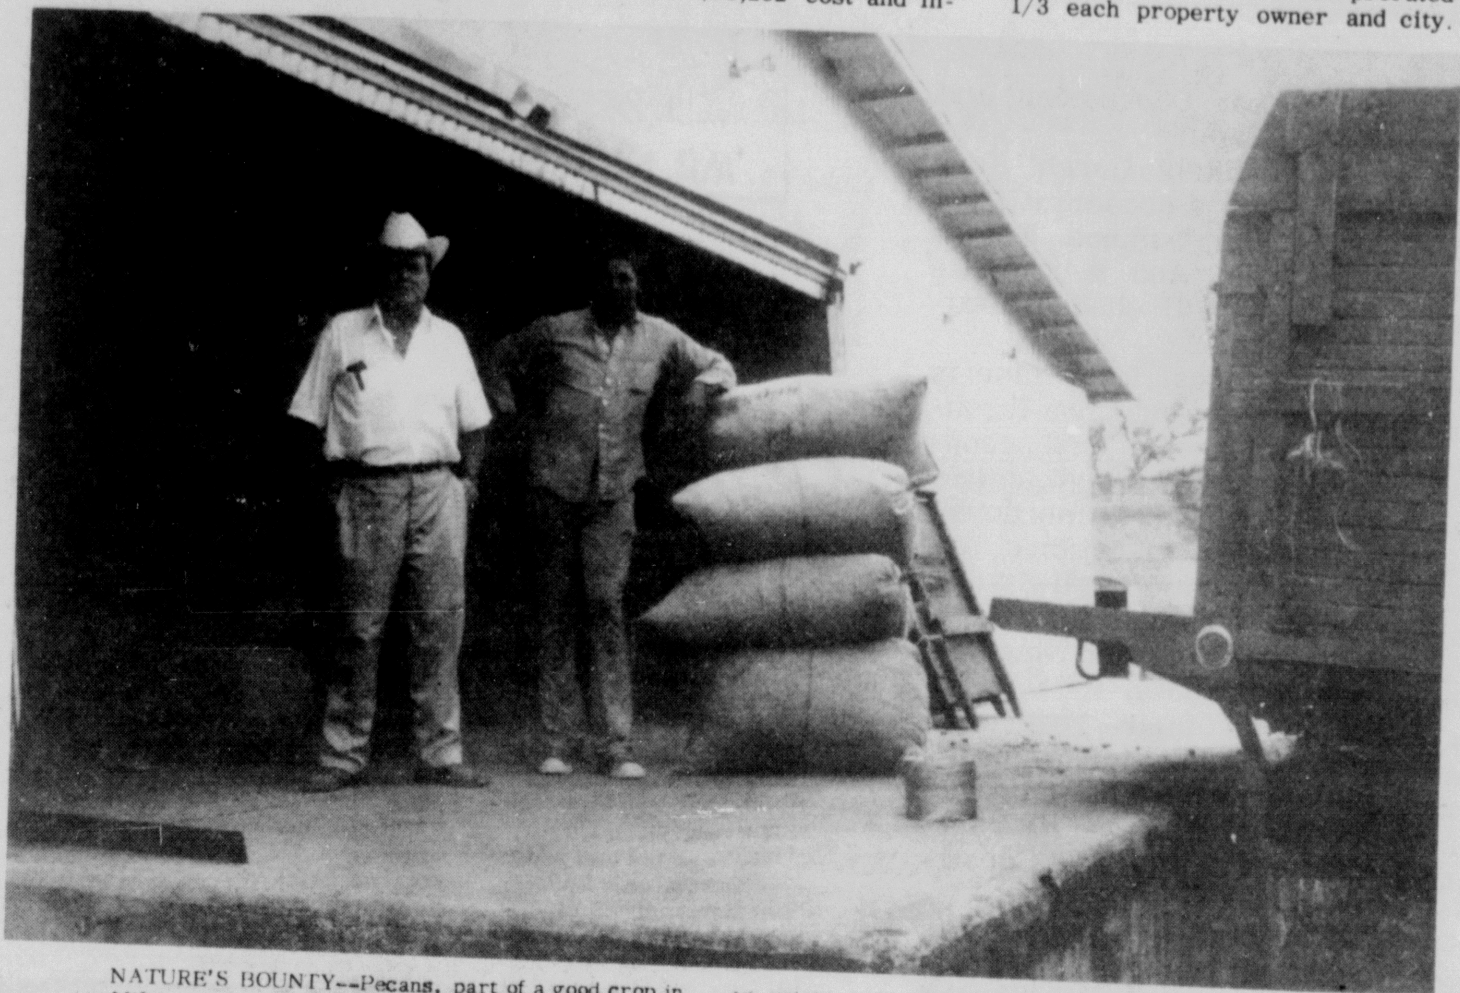

ton, D. C. where he visited with President Ford.

Mark lives on the family's 2,700 acre ranch on the Brazos River and Breeds Hereford cattle. He has had beef breeding and feeding projects and has shown his cattle in a number of local and major stock shows. He placed first in the Texas and the National American Junior Hereford Association Public Speaking Contest and was named outstanding actor in district, area, and regional one-act play contests.

He plans to attend Texas A&M University and is expecting to major in agriculture communications.

MARK ELLISON

NATURE'S BOUNTY--Pecans, part of a good crop in Milam and other surrounding areas, are unloaded here by E. L. Byrd and Edward Lewis of San Saba for R. B. Bagley & Sons, wholesalers, for shipment

to points east and north. Local pecan crops vary widely, with disease and insects sometimes taking their toll, but with some trees spilling record crops.

OLD PHILOSOPHER

Dear editor:

Some people are always lambasting the school system, saying it's not meeting the demands of modern times, there are too many drop-outs, too many absentees, that kids can finish high school without being able to pass a test in reading, writing, or arithmetic.

Well, I just read an article about how one big city school - Dallas, Texas - is solving the problem and heading off such criticism.

It has abolished exams for most kids.

That's right. It has a rule that if a student is not absent more than 3 days in a quarter he doesn't have to take that quarter's final exam. Gaze out the window if you want to but answer present to the roll call. Anyway, it's an invasion of privacy to try to find out if a kid can read or write.

This seems to be the answer on how to attain universal education.

Thus, I suppose if a kid will go through grammar school and high school without missing more than 3 days

every quarter, he gets a diploma unexamined. If he'll make the same record 4 years in college, he gets a Bachelor's degree. Go another year and he has an M.A. degree. Stay in there 3 more years and he has a Ph.D.

So to reach the pinnacle in education all he has to do is stay healthy and not play hooky, provided his cross-town bus doesn't break down more than 3 days in a quarter, although I can't believe the Supreme Court would rule a person uneducated just because his bus had a blown gasket 4 days in a row back in the eighth grade.

In this connection, I read that an industrial leader in Japan has complained that his country is turning out so many educated people that they are "boggling down the country's decision-making process with their suggestions." He said Japan's colleges have increased from 50 during World War II to 1,000 now, and everybody is so informed everybody has his own answers to every problem, plus thinking up new ones, and nobody can decide which is right.

If Japan will adopt this new system, it won't have that problem.

Yours faithfully,
J. A.

Irony On The Bench...

The resignation of Justice William O. Douglas may have opened the U. S. Supreme Court to the certainty of the appointment of the first woman justice.

Douglas resigned because of poor health, ending a 36-year career in the toughest and longest personal era of judicial discipline in the Court's history.

Douglas, the consummate liberal, would like the idea he was succeeded by the first woman justice, though she likely will be a conservative appointed by President Ford. Until recent years, the pressure for such an appointment would have been minimal if not non-existent.

At 77, Douglas is in an Oregon hospital for treatment of complications following a heart attack some time ago. He otherwise would still be on the job.

Douglas is probably the ultimate individualist on the Supreme Court. He contributed to dominant liberal majority in those years when civil rights, social justice, and individual liberties tore at the American class barriers of 150 years, which began breaking down with

the Great Depression and World War II.

It is likely Gerald Ford will name a conservative to swing the balance 5-4 to that side. And it is quite likely he will choose a woman.

Even though feminism is claiming major gains throughout the social and economic spectrum, advocates for the Equal Rights Amendment, both state and national, are seeing defeat after defeat. In recent November elections, both New York and New Jersey voted down ERA legislation in their respective states. And at least nine legislatures have halted ratification of a federal ERA amendment to the U. S. Constitution.

This is appropos the question because the prospect of a woman reaching the ultimate post in law is a conservative prospect. Her arrival would signal a feminist triumph in the legal profession at the hands of a conservative in the wake of a male liberal's resignation.

Justice Douglas would enjoy the irony. And feminists will puzzle the implications.

Dateline Austin

State's Cash Surplus May Not Last

State government ended its 1975 fiscal year with a record cash surplus of more than \$1.4 billion, but if the legislature continues its spending ways it may not last long.

This was the good news and the bad news of Comptroller Bob Bullock last week as he released his annual financial report for the fiscal year which closed August 31.

"We're in the best shape ever for now," said Bullock. "But our analysis consistently shows that if spending increases as usual in 1977, we will face a tax bill in the \$1 billion range."

The Legislature this year passed a \$12.1 billion biennial appropriations bill.

Gov. Dolph Briscoe and others have predicted that, with reasonable economies and continuing high yield from sales and oil and gas taxes, a major state tax bill can be avoided in 1977 as in the last two legislatures.

Bullock said the state had \$6.9 billion in the last fiscal year to meet an expenditure level of \$5.5 billion.

Revenues, the Comptroller said, increased 13 per cent over 1974 income — reaching \$5.7 billion.

"The real story," said Bullock, "is that revenue increased because of inflationary prices while the tax base remained the same. Spending jumped 21 per cent over the previous year. If legislators want to increase spending another 25 to 30 per cent in the next biennium, they had better have that billion dollar tax bill ready."

GOP Moving

Texas Republicans outlined major plans for 1976 campaign activities at a meeting here recently.

The State GOP Executive Committee approved Chairman Ray Hutchison's proposal to establish a powerful new executive campaign committee and central political fund.

Special recruiting committees were also appointed to seek out qualified congressional and legislative candidates.

Republicans decided to conduct their presidential preference primary on a congressional district basis. Ninety-six of the 100 GOP presidential nominating delegates will be elected at the polls May 1, and only four will be picked at the June 19 state party convention in Fort Worth.

Mrs. Pat Archer, wife of Houston Congressman Bill Archer, was elected new GOP National Committeewoman to succeed Mrs. Rita Bass Clements of Dallas who resigned.

Hutchison named Ernest Angelo of Midland to head the new 15-member GOP executive campaign committee. Bob Flournoy of Lufkin was designated vice chairman.

Rates Studied

A 7.1 per cent increase in workmen's compensation insurance rates has been recommended by State Insurance Board actuaries.

Insurance company spokesmen aren't happy. They recommended a 12.3 per cent boost. Industry representatives weren't pleased either. They pointed out Texas business and industries already pay \$611.6 million a year to insure employees against on-the-job death and injury, and they claimed this is too much.

Courts Speak

The State Supreme Court left standing a lower court ruling that state and local

governments can charge fees for access to large records computer data and microfilm.

The Open Records Act, court rulings have held, permit charges to examine such records.

In another ruling, the High Court affirmed a Texas Railroad Commission gas curtailment order placing Houston Lighting and Power Company in seventh priority as a customer of United Texas Transmission Company.

The Supreme Court also held that a Smith County man must be jailed for contempt of a court order by returning a tractor which he sold out of Texas.

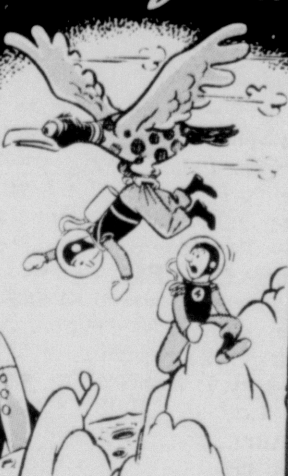

AG Opinions

Atty. Gen John Hill's opinion banning many special school fees may cause loss of district accreditation, State Board of Education warned recently.

In a recent opinion, Hill held school districts should not contract with one of their trustees to furnish garbage service, even if there is only one such service in the area.

Hill also concluded the Smith County domestic relations court judge's pay should be equal to the state portion of the county's district judge salary.

Out of Orbit

HEY BUSTER, YOU TRYING TO DESERT THE EXPEDITION?

Insight Thinking Outside...

Former President Nixon, a contributor to the ennui in this country, suggests in an interview current in Ladies Home Journal:

"If I were President, I would ask five or six of the best brains around me to go off on a retreat for several weeks and ponder some things - how we could make our people feel more pride, not be so concerned with Arab wealth."

Breaking a silence of more than a year since resigning, Nixon also said the U. S. still must provide international leadership. "England is at a standstill. France seems in disarray. Italy has a crisis government. Germany can't rally a world cause."

The defrocked former President didn't introduce ennui - apathy, indifference, lack of motivation - into this country. It came with bigtime economics, war, diplomacy, espionage, some time after Korea and Vietnam, per-

haps with the assassination of John Kennedy and the other political shootings.

But the former President, whom Leon Jaworski said endured more than he, Jaworski, would have wanted to survive, sees a potential for rekindling this international leadership.

Nixon would go to the backwoods, to a retreat with the kind of people whose heads can turn on, not off. He still finds speculative inquiry in nature the response to our problems.

Lyndon Johnson sent to his Hill Country ranch. John Kennedy went to Hyannis Port. Eisenhower went to Camp David or his Pennsylvania farm. Harry Truman went back to the "folks" in Independence. FDR escaped to Hyde Park.

Nixon is saying the response will come from within. The response will come from insight thinking outside.

We happen to agree.

HERALD CLASSIFIEDS
STAY AROUND ALL DAY

Buckholts

By Mrs. Edwin Gandy

The weekend rival at the South Elm Baptist Church closed Sunday night. Bro. Thomas Dusek of the Gause Baptist Church gave the me-

ssage each evening with Bro. Ike Harvegrove, pastor of the Church led the singing.

Visiting with Mr. and Mrs. L. A. Svetlik Sr. over the weekend were Mr. and Mrs. U. D. Adams and sons of Austin.

There were a lot of men that left Friday for their deer camps so they would

be there early Saturday morning when deer season opened.

There was a good turnout for the work day at the Buckholts City Park on Saturday. A covered dish lunch was served for the noon meal at the Park.

We are glad to report that C. S. Raney is able to

be back home after spending several days in St. Edward Hospital.

Visiting with Mrs. Alpha Peeler Sunday afternoon was her daughter and son-in-law Mr. and Mrs. J. E. Shubery of Austin and her son and family, Mr. and Mrs. N. E.

Peeler.

Visiting with Mrs. Dealie Arnold on Sunday were her children Mr. and Mrs. Dylal Arnold and Joyce, Mr. and Mrs. John Zajicek, Bro. Ike Harvegrove, and Bro. and Mrs. Thomas Dusek and sons.

Mrs. Myrtle Hill of Houston visited relatives here and in Temple over the weekend.

Mr. Gus Hopkins, who is employed at Huntsville, was home over the weekend.

Gienn Roesler was home with his parents.

SOME PATOOTIE--Last June Mrs. Will Stoeber of Burlington planted some sweet potatoes in Mrs. Otto Kelm's Garden in Cameron. A few days ago they dug this 5 1/2 pound sweet potato from this garden.

Gause News

By Wanda Lee

The Gause Community Improvement Association will sponsor a fund-raising get together at the Community Center on Saturday, Nov. 22 from 4 to 9 p.m. Coffee, punch, sandwiches, chili pie, cake, pie, and Rice Krispy squares will be sold. There will be bingo, fish pond, cake walk, general merchandise store, and a photostop--something for everyone. Come one, come all.

Rev. Richard Mangum of Belton was guest speaker at the Baptist Church Sunday in the absence of the pastor, Thomas Dusek, who was in a revival at South Elm.

Mr. and Mrs. Henry Simmons spent the weekend in Houston with Mr. and Mrs. "Tee Joe" Marks and Traci.

Mr. H. B. Alexander is home from the hospital in Bryan where he had surgery several weeks ago.

Mr. and Mrs. Koye Cass and their granddaughter, Regina Miller of Milano, visited in Lexington last Tuesday night in the Jimmy Cass home.

Mr. and Mrs. Harold Krauter of Comfort spent the weekend with their daughter and family, Mr. and Mrs. M. D. Brown, Marshall, and Tammy.

The school Parent's Club met last Tuesday at the school to discuss how to spend the money that was made at the Halloween Carnival. It was decided to buy a laminating machine for the teachers use in class work, a hot plate for the science and art classes, ropes to make swings, and

if anyone has old tires to discard, they can be used for playground equipment. There are a number of schools using old tires for this purpose.

Christmas Seals

Show Child's Art

The 1975 Christmas Seals are unique in that they're out of the minds of children. Tim Cole, 10, son of Mr. and Mrs. Ted Cole of Austin, was the designer of the original painting from which the art for the 1975 Texas Seal was chosen. A facsimile of Tim's drawing is on permanent display at Winn Elementary School where he is a fifth grade student.

For the first time in almost 70 years of the Christmas Seal tradition, the seal designs are the creative work of youngsters. A different child's concept of Christmas for each of the fifty-four states and territories.

Local Men Fined

Edison Fikes and Carrol Fikes, both of Cameron, pleaded guilty to charges of bodily injury to another in county court November 12 and were fined \$300 and \$150 respectively, plus court cost. The charge grew out of an incident on October 10.

Bookselves of fir or pine can be added to the railing around an open stairwell.

County Agent's Notes

Agent Reflects On Deer Hunt

By Bill McCutchen

My deer hunting fever was running high last week as the countdown to deer season drew near. I had laid the groundwork for my deer hunt last August in explaining the benefits of oat patch for cow pasture to my dad. I don't think I fooled him much, but I wound up with deer pasture and he may get a little cow feed out of the deal. After deer season, of course.

The modern deer hunter doesn't hunt to eat anymore, but still the primeval hunting instinct seems deeply ingrained in the male human. A lot of the enjoyment is in preparing for the hunt, roughing it with friends, getting away from the routine, getting out with nature, and shooting the bull (or buck) about past hunting exploits.

I have yet to get my wife to understand this deer hunting mania in the male animal. To her a good hunt is a bargain sale during the holiday season. Deer hunting helps a man understand himself and his endurance. It can be most difficult to endure your cooking or that of the camp "chef" for a week or weekend. Getting up at 4 a.m. on a cold morning and sitting out in a deer stand in pitch dark in freezing weather can also test your endurance and sanity. I have often asked myself what I was doing sitting like a buzzard in a tree under miserable conditions, but I go back for more so I must like it even though I sometimes have a hard time convincing myself.

The modern deer hunter never ceases to amuse me. Most would turn down a steak from the corner grocery that was beginning to

turn a little dark, but think nothing of hanging a deer carcass, hide on of course, under a tree for two days in 80 degree weather and then half cooking it while hauling it home on the hood of the family bus.

This kind of handling can't be offset by the culinary arts lending fuel to the fire of the little woman in lambasting the proud hunter for paying \$400 for a lease to shoot something that tastes like roast skunk.

If you figure time, mileage, equipment, and hospitalization for frost bit, food poisoning, and pneumonia; beef steak at \$10 per pound would be a real bargain in comparison but deer hunting is one thing a devoted hunter won't put a pencil to, and why should he. He should be allowed to enjoy a little misery, shouldn't he?

Production Of Peanuts Set High

AUSTIN--Peanut harvest in Texas is about half complete and peanut farmers are reporting good to excellent yields, according to Agriculture Commissioner John C. White.

Production is expected to total 474,300,000 pounds compared with 413,280,000 pounds in 1974.

Harvested acres are estimated at 306,000, representing an increase of 6 percent over the 288,000 acres harvested last year.

Yield per acre is estimated at 1,500 pounds. This is approximately 100 pounds per acre more than last year.

Peanut harvest is underway in all parts of Texas except the High Plains.

Grain Prices To Affect Livestock

Grain prices will have a big influence on the livestock outlook for this fall and next year, contends a livestock marketing specialist for the Texas Agricultural Extension Service.

Dr. Ed Uvacek points out that whether grain prices go up or down will affect both fed and feeder cattle prices.

"If grain prices stay high, the number of cattle placed in feedlots this fall will probably not be high enough to cause supply problems next spring and summer," says Uvacek. "That could mean higher fed cattle prices next year."

"On the other hand, if grain prices ease down somewhat as the harvest season moves forward, placements will be large and fed cattle marketings by next spring and summer could be burdensome. This would, however, in the short run provide more strength for feeder cattle prices than if grain prices stay high."

Uvacek says that early fall sales of feeder cattle were much higher than summer levels and that even though fed cattle marketings will not be large, they will be up from recent levels. Many nonfed cattle will also be slaughtered during the next three months, and this could lower fed cattle prices, says the specialist with the Texas A&M University System. "The proportion of fed beef to nonfed beef, then, for next year will depend greatly upon the price of feedgrains," contends Uvacek.

Paneling Primer

How to buy and install board paneling is detailed in a 12-page booklet available for 25 cents in coin from Western Wood Products Assn., Dept. 512-P, Yeon Bldg., Portland, Or. 97204

COWBOY PROMOTES SEED--Larry Mahan, center, has been signed by Conlee Seed Company of Waco as company spokesman for their 1975-76 grain sorghum promotion. The world champion is shown with Walter Moss, left, general manager of Conlee Seed, and Doug Conlee, president of the company.

Texas Farm Bureau Sets 42nd Annual Convention

SAN ANTONIO

Some 1,500 persons, including more than 1,000 voting delegates, are expected to attend the 42nd annual meeting of the Texas Farm Bureau at the Convention Center here Nov. 30-Dec. 3.

Highlighting the convention will be an address by Gov. Dolph Briscoe at the general session on Monday morning, Dec. 1. TFB President Carroll Chaloupka of Dalhart will also speak at the session.

Policies to guide the state's largest general farm organization next year and recommendations on national policies will be adopted during the final two days

of the meeting. Election of directors and president will be the final order of business.

The Texas Farm Bureau has 180,470 member families in 210 organized county Farm Bureaus. The number of voting delegates from a county is based on the total number of members in that county.

The convention will get under way with registration beginning at 2 p.m., Sunday, Nov. 30 in the Convention Theater Lobby.

The Vesper Service, which traditionally opens the TFB annual meeting, will be held at 6 p.m. that day, featuring the Providence High School Choral Group from San Antonio. Speaker will be Rev. Delmas L. Luedke, pastor of Hope Lutheran Church in San Antonio. He was recently named Texas' 1975 Rural Minister of the Year.

District finalists will compete in a state Discussion Meet that evening with the winner representing Texas at the annual meeting of the American Farm Bureau Federation in January in St. Louis.

The State finals of the TFB Talent Find will be held immediately following the Discussion Meet. A representative from this competition will be selected to perform at the national meeting in St. Louis.

The Monday morning general session, which features speeches by the Governor and the TFB president, will also include a report by Reed Lang of Rio Hondo, TFB secretary-treasurer.

The First Lady of Texas, Mrs. Janey S. Briscoe, will speak at a ladies luncheon on Monday at the Hilton Palacio del Rio Hotel.

Seven special conferences are scheduled for 1 p.m., Monday. These include Livestock and Animal Health, Community Services, Cotton, Poultry, Wheat and Feed Grains, Rice, and Farm Bureau Services.

Conferences slated for

3:30 p.m. that day are Field Crops, Research and Education, Farm Labor, Young Farmers and Ranchers, Natural Resources, and Dairy.

The annual Queen Contest, with 12 district winners competing for the state crown, will be held at 7 p.m.

Tuesday morning activities will begin with district caucuses at 8:15 a.m. and the convening of business session at 10 a.m. It will continue through the remainder of the day.

The Awards and Recognition Program will be held at 7 p.m., Tuesday, and will be followed by the annual dance.

The business session will reconvene at 9 a.m. on Wednesday and will continue until all proposed resolutions have been disposed of. Final order of business will be election of directors from odd-numbered districts and the president. Following adjournment, the TFB Board of Directors will meet to select a vice president and secretary-treasurer.

Coyotes Damage Melons

AUSTIN--Most people probably don't realize that coyotes like to eat watermelons, but watermelon farmers in Henderson County in East Texas know all about it.

In that county, coyotes have damaged approximately 20 percent of the 2,000 acre watermelon crop.

Coyotes damage watermelons by breaking open the watermelons and eating them, or by biting the exterior, thus making them unsaleable. Agriculture Commissioner John C. White explained.

In Henderson County, coyotes became a problem when the county trapper was replaced with the bounty system. During that time, coyotes began to damage the watermelon crop.

That Time Of Year... Spirit of '76... Stock It To Them.

Several thousand farmers and ranchers will receive a questionnaire during the latter part of this month and the first week or so in December from the Texas Crop and Livestock Reporting Service.

It will be either a crop or livestock questionnaire. If you are one of those receiving the questionnaire, you are requested to fill it out as accurately as possible and return it as promptly as possible.

In this way, you will be doing your part in providing, for Texas agriculture and all of the economy, a true picture of our state's most basic industry - agriculture.

Your cooperation is essential, and today it is even more important than ever before to have accurate agriculture production information on which sound judgments can be made.

THE SPIRIT OF '76 seems to be taking hold of agriculture, too, as it relates to parity.

The latest report on parity for the nation is now 76. It was also 76 as of a month ago; a year ago it was 78. It means that agriculture generally is about three-fourths as well off financially as the rest of the economy.

The all-farm products index of prices received by Texas farmers and ranchers stands at 476. This means a two per cent decline compared to a month ago. The crop index was up, but the livestock index was down.

Only oats, hogs and mohair are above parity levels for agriculture producers. Wheat in Texas averaged \$3.95 per bushel; parity is \$4.65. A year ago, wheat in Texas sold for \$4.76 per bushel.

Grain sorghum averaged \$4.46 per hundredweight in Texas; parity is \$5.18. A year ago, grain sorghum was selling at \$5.82.

Cotton continues to be the big exception in crop prices. Parity for that commodity is 79 cents a pound; the average price in the state is 45 cents per pound; that, however, is up six cents per pound from a month ago and is about the same as a year ago.

Hogs, despite some price declines, continue above parity. Hog prices in Texas average \$54.80; this compares with a parity ratio of \$48.70. A year ago, hogs in Texas brought only \$35.60.

Beef cattle average price is \$29.70 compared to \$56.20 parity. Calves averaged almost \$23 in Texas; parity is almost \$70. Sheep and lambs which have been above parity in recent months, are now below that ratio, also.

Mohair at \$2.12 is 23 cents a pound above parity. Turkey prices to producers average 35 cents per pound; parity is 47.4 cents.

Egg prices average 60 cents per dozen; parity is 77 cents per dozen.

STOCKS OF THE FOUR FEED GRAINS - corn, oats, barley and sorghum - in Texas are estimated at 29,000,000 bushels, a decrease of 12,000,000 bushels from a year ago.

Corn and grain sorghum were responsible for the decrease. Nationwide, stocks of the four grains are 10 per cent less than a year ago.

EPA Regulation May Delay Ag Construction

Certain new agricultural and industrial operations may be required to submit lengthy environmental assessment reports to the Environmental Protection Agency (EPA) nine months prior to construction if proposed regulations are put into effect.

According to Dr. John Sweeten, agricultural engineer in waste management for the Texas Agricultural Extension Service, the proposed EPA regulations would subject new feedlots and certain other agricultural "point sources" to the Environmental Impact Statement (EIS) Program established under the National Environmental Policy Act of 1969.

Agricultural related industries classified as point sources include major irrigation projects, fish farms, meat packing and fertilizer plants, grain mills and dairy, seafood, fruit and vegetable processing plants.

The EIS Program, which has now been applied mainly to federally-sponsored projects such as dams, airports, and interstate highways, would require new feedlots and other operations to go through a 14-step procedure before their application for a water pollution abatement permit would be considered by the EPA.

"Anyone who wanted a permit for a proposed feedlot would have a fill out an environmental questionnaire at least nine months before starting construction and return it to the EPA," says Sweeten. "Then, he'd have to submit a comprehensive environmental assessment report which would be reviewed by the EPA. If EPA determines that the operation could have a significant impact on the human environment, the agency would draw up an Environmental Impact Statement and advertise for and receive public comments

concerning the proposed project. When major concerns of the public have been overcome, EPA would begin processing the permit.

"In many cases the Environmental Impact Statement procedure has proven to be a long, costly process, even for large corporations and major federal projects," says the Texas A&M University System engineer.

"Expansion of this 'public decision making process' to all new 'point sources' will have a definite effect on expansion plans within the affected industries."

Comments on the proposed regulations are invited by EPA. Such comments should be sent to the office of Federal Activities, U. S. Environmental Protection Agency, Washington, D. C. 20460, no later than Nov. 24.

4-H News

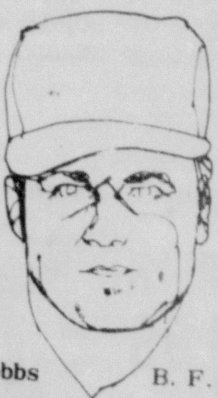

By Kenneth Waites

The Farm Bureau in Milam County sponsors a Farm Bureau Gilt Program each year and at the present time there are five gilts being fed by 4-H'ers over the county. These gilts and their litters will be judged next week by Henry Richter. He will also select five more gilts to be presented to 4-H'ers.

Applications can now be made by those 4-H'ers who are interested in feeding one of these gilts by writing a short story telling why they would like to participate in this program. At the end of the program they must return one of the gilts in the litter. We also reserve the right to inspect facilities for proper care.

Deadline for these entries is Monday, November 24. Send applications to Kenneth Waites, Box 450, Cameron, Texas.

Gulf Farm Center in Cameron has been selected as your Certified Crop Care Center.

Skip Hobbs B. F. Grimes

In recognition of professionalism as suppliers of farm services Skip Hobbs and B. F. Grimes of Gulf Farm Center have been named as members of the new Certified Crop Care network.

Crop Care is a unique concept in farm supply service, especially designed for you, the progressive farm businessman.

Management takes time. Time to plan. Time to think. Time to make decisions. Good management also takes professional help and advice when and where it is needed.

Your Crop Care dealer offers these services, designed to give you the kind of professional help you need to better manage your cropping programs:

1 Complete, accurate, soil testing service. Your Certified Crop Care dealer will assist you in obtaining soil samples and will send them for you to a leading soil analysis laboratory. The laboratory soil analysis and computerized fertilizer recommendations will be reviewed with you and an application plan developed.

2 Plant analysis. Your Crop Care dealer will help you take samples, and handle all details of the tests. He will provide you the printed report analysis along with expert interpretation. This service pinpoints deficiencies in uptake of plant food nutrients.

3 One-source responsibility for your farm chemicals. Your Certified Crop Care dealer offers weed and pest control programs, as well as fertilization of your crop land. Your Crop Care dealer is qualified to render a complete range of services from planting to harvest.

Your Certified Crop Care dealer pledges to offer farmers:

- Products and services best suited for maximum, efficient crop production under local growing conditions.
- Sound counsel on crop production, based on soil test and plant analysis services.
- Product application equipment and services that fit customer needs.
- A staff of professional people with the experience, knowledge and capability to relate to local grower requirements.
- A progressive retail business dedicated to building and maintaining high standards in quality of products and services.

4 Professional counsel. Your Crop Care dealer is well informed on all matters associated with efficient and profitable crop production. He is a most valuable source of

information about successful farming ideas used in the area. And he can draw on the experiences and techniques of other Crop Care dealers, too.

5 Skilled, professional application. As a part of his total Crop Care service, your dealer offers custom application of fertilizer and other farm chemicals. Application may be made by one of your Crop Care dealer crews. Or he may arrange for application by a qualified applicator.

The services your Crop Care dealer offers are designed to help you get maximum yield, and to free up your time to do what you do best. Manage. Your Certified Crop Care dealer can provide professional advice and services to help you do it better.

Remember, you get Certified Crop Care Center services only where you see this sign.

Corrugated Steel culverts all sizes and lengths 4" to 120" in diameter up to 40' lengths. We deliver anywhere in Texas.

Cold Weather Likely To Cause Tire Problems

Washington, D. C. This time of year, when temperatures sometimes drop suddenly and sharply, tires bear special watching, says the Tire Industry Safety Council.

"For every ten degree drop in temperature a tire may lose a pound of air pressure," said Council Chairman Malcolm R. Lovell Jr.

"As always, it's a good idea to check your tires for proper inflation with your own gauge before starting

out," Lovell said.

"Underinflated, soft tires can cause erratic steering and excessive wear as well as make engines work harder to overcome rolling resistance," Lovell explained, "and the more energy your engines need, the more gas it uses."

The Tire Industry Safety Council offers these other safety and maintenance tips for colder weather:

"Now is a good time to have your alignment check-

ed, following the traditionally busy driving season. Most dealers and stations won't charge you unless alignment is needed.

"If you plan to use winter, or snow tires, store your regular tires flat in a cool, dry place. Make sure they are out of the sun and away from electric motors, which produce rubber-deteriorating ozone.

"If you are thinking about putting on studded tires, check your state regulations

to see when and if they are permissible. Your state police or highway patrol will have this information.

"To try to prevent a skid and maintain control, pump rapidly but lightly on your brakes until you slow down. If you continue to slide anyway steer in the direction of the skid, foot off the brake pedal until you feel like you are in control again.

"Contrary to some popular opinion, underinflated tires don't provide better traction on slick surfaces. Underinflation does cause excessive heat buildup, a tire's worst enemy.

"The drop off at the shoulder of the road can be a trap for tires, especially at high speeds in hazardous weather. If you steer off

the highway, slow way down and check traffic before you angle sharply back on the pavement.

"Bald tires are especially risky in bad weather, because tread grooves serve to funnel water and snow out from under the tire. A tire is bald if it has less than 1/16 inch tread depth between any two or more grooves. Built in 'wear bars' will show as smooth surfaces across the face of the tread when it is down to 1/16 inch.

"Best tires go on the rear for best traction.

Board Beauty

Dress up a drab bedroom with lumber paneling. Western hemlock 1x4-inch boards with V-groove edges are a fine choice.

Cameron, Texas, Herald, November 20, 1975 Page 5

Sprinkling Prevents Frostbite

The first frost of the fall season need not spell doom for your garden vegetables. A vegetable specialist with the Texas Agricultural Extension Service suggests using water to protect cold-susceptible plants from freezing temperatures.

"When water freezes it gives off heat," says Sam Cotner. "In fact, when a pound of water loses a degree of temperature, it gives off more heat than any other substance. This heat can warm the air around plants and protect them from freezing."

The most effective way to

protect plants is with a sprinkler, contends the Texas A&M University System specialist. Apply water continually during the time freezing temperatures exist. This may mean sprinkling the garden all night.

"If a frost is expected, sprinkling in the early morning will probably be sufficient," notes Cotner.

Another method for protecting plants from freezing temperatures is furrow watering. However, this method is not as effective as sprinkling.

Cotner warns against washing plants off with warm water after a frost occurs.

"Plant tissue can be badly damaged when they are forced to thaw in such a short time. It's better to let them thaw out gradually."

So don't let the first frost put an end to your supply of nutritious, home-grown vegetables this fall. If light freezing conditions are expected, crank up the water sprinkler, advises the specialist.

Skills Acquired

Neophyte handyman, take heart. More than 70 percent of all home improvement and repair jobs are being done by the owners, estimates the National Home Improvement Council.

MRS. DARYL RITCHIE HORTON

Vows Unite Guess - Horton In Candlelight Ceremony

Miss Marsha Ann Guess became the bride of Daryl Ritchie Horton Saturday evening in a candlelight ceremony at the First Baptist Church in Rogers.

The bride is the daughter of Mr. and Mrs. Brister Marshall Guess of Rogers and the granddaughter of Brister Guess and Mrs. Frank Poncik of Rogers. The bridegroom is the son of Mr. and Mrs. Hershel A. Horton of Houston. He is the grandson of Mrs. Clarence Ritchie of Mobile, Ala.

Dr. A. J. Green Jr., executive director of South Texas Children's Home in Beeville, officiated at the double-ring ceremony. Wedding music was provided by Larry Guess, soloist, and Mrs. Milton Keith, organist. Guests were registered by Miss Linda Farrell of Austin.

Sparks of Houston, Mrs. Kenneth Hoelscher of Temple, Miss Marie Elisk of Burlington, and Miss Paula James of Rogers.

Also Miss Kathryn Jan Merka of Dallas, Miss Brenda Brown of Fort Worth, and Dennis Doyle Ray of San Marcos. Distributing rice bags were Miss Kedda Wendler and Miss Lisa Ashcraft of Rogers.

Out of town guests included Mr. and Mrs. Garrison R. Jackson of Austin, Mr. and Mrs. Jack Cristina of Baton Rouge, La., Mr. and Mrs. Gerald Vance of Houston, Mr. and Mrs. Dan Estes of Houston, Miss Eileenberry of Houston, Mr. and Mrs. Michael Biggs of Houston, Mr. Mark Wheeler of Austin, Mrs. Joseph Koch of Houston, Mrs. Jack Cristina Jr. of Baton Rouge, La., Mrs. Lee F. York of Lubbock, Mr. Van York of Snyder, and Mrs. Wilma Guess of Rosenberg.

Given in marriage by her father, the bride wore a designer original gown of ivory Alencon lace over imported English net. The dress featured a high neckline, cap sleeves, and a satin bordered hemline with a swart train. Her tiered veil of illusion fell from a picture hat of Alencon lace. She carried a cascade bouquet of roses, Jaffet orchids, stephanotis, gypsophila, and English ivy.

Maid of honor was Miss Letha Kay Self of Dallas. Bridal attendants were Miss Janet Sue Vandergriff of Midland, Mrs. James Madeley of Temple, Miss Janet Frances Guess of San Marcos, and Miss Linda Jane Guess of Rogers, sisters of the bride. The bridesmaids wore dresses of apricot tiana. They featured empire waists, draped capelet sleeves, and a V-neckline that was enhanced by roses of the same fabric. They carried mixed bouquets of Sonya roses, apricot carnations, gypsophila, and English ivy.

Best man was William Rexford Byerly of Houston. Groomsmen were John Wingfield Storey Jr., Joseph Stives Koch, Joseph Wayne Knox, and William Hugo Martin III, all of Houston. Candlelighters were Stevan Hendrick Ward of Dallas and David Bruce Guess of Bryan, brother of the bride.

Ushers were Jack John Cristina Jr. of Baton Rouge, La., Job Dean Jessop of Houston, Stevan Hendrick Ward of Dallas, and David Bruce Guess of Bryan.

After the ceremony the reception was held in the Rogers Civic Center. Members of the houseparty included Mr. and Mrs. Durrell D. Ward, Mr. and Mrs. Jeremiah H. Merka, and Mr. and Mrs. Doyle Ray of Rogers. Also Mrs. David Bruce Guess of Bryan, Mrs. Gene Robert York of Heidenheimer, Mrs. William Barney

Kelta Pi, educational honorarv. She is an elementary teacher in the Spring Branch Independent School District in Houston.

The bridegroom's parents hosted the rehearsal dinner Friday evening at the Stagecoach Inn in Salado. Gifts were presented to the attendants.

After a wedding trip to Acapulco, the couple will live in Houston.

National Honor Society Gets New Members

New National Honor Society members for the 1975-76 school year have been chosen.

The new members are Mary Ann Anderle, Janet Angell, Carl Bradley, David Delony, James McCullin, Brian Wilkinson, Jeanne Dodd, Lanny Dusek, John Homerstad, Lizzie Taylor and Curtis Wise.

To become members, students must maintain an overall average of 90 or above and be actively involved in school organizations.

Old members include Jan Burke, president; Mary Han-el, vice president and re-

porter; Shirley Juneke, secretary; Joe Schmidt, treasurer; Eva Mikulec, Rachel Reynolds, Anne Shelander, Raymond Tomek, Sarah White, Diana Chubb, Eloise Henderson, Richard Raymond and Judy Tomek.

Miss Susan Rossen is sponsor of the group.

Group activities this year have included a visit to the Country Dinner Playhouse in Austin to view the play "1776" on Nov. 15. The group is now conducting community birthday calendar sales which will continue until Dec. 9.

Extension Agent

PROPER HANDLING KEEPS WILD GAME SAFE TO EAT.

Compliance with a new law requiring hunters to keep wild game in edible condition after the kill - and following basic cooking guidelines - can mean safe, high quality meals with less pressure on the food dollar.

The Texas Legislature passed a statute requiring that "a reasonable effort be made to retrieve all wounded game animals or game birds shot become a part of the legal bag limit."

This law also requires that all game animals, game birds and game fish taken into possession must be kept in an edible condition and it sets a penalty of \$25 to \$220 for violations.

This means that a hunter who shoots a quail which falls into a thick weed patch and then makes no attempt to retrieve the bird will be in violation of the law. And a hunter who kills game and leaves it in the truck of his car until it spoils will be in violation.

Proper handling in the field centers on proper cleaning and quick cooling. Hunters generally agree that proper cleaning demands a well placed shot in a vital area that doesn't rupture intestines or paunch.

Quick cooling delays spoilage, the animal should be drawn immediately after killing. Move it so its head is

up hill. Make a ventral cut from the base of the tail to the breast bone and roll out the viscera. Avoid slashing the intestines or stomach. Wipe the body cavity with clean cloths or paper towels - but don't use water.

Hanging the carcass will hasten cooling. Protect meat from flies and dust with muslin or cheese cloth bags which let air circulate. Heavy tarpaulins and airtight game bags keep body heat in and slow down cooling.

Proper loading and transporting the animals is essential to handling, most hunters caution. Carry the animal - still wrapped in the protective cloth - on top of the car is recommended. Also, on cool days, the car truck in a safe place.

But avoid carrying animals on car or truck hood s and fenders, since heat from the sun and car motor can ruin all previous good care.

Once the animal has been

handled properly in the field, the cook should remember some basic rules for preparation.

Dry heat, such as oven roasting, broiling, pan-broiling, and frying, is suitable for young, tender game. Basting with additional fat may be necessary if the meat is lean.

It's best to cook older, less tender game by moist heat, such as braising, stewing, or simmering. Swiss steaks and pot roasts are cooked by braising - add a small amount of liquid to meat cooked in a covered container.

Long, slow cooking tenderizes meat without drying it.

More information on wild game preparation is available from the Milam County Extension Agent's Office at 107 N. Central, Cameron, Texas, 817-697-3382. Ask for "Wild Game - Care, Cooking" (B-987) and "Field Dressing Big Game" (L-634.)

The Cameron Herald

SINCE 1860

MRS. LEO W. HAWKINS was honored with the Yard of the Month award from the Fleur de Lis Garden Club this month. Her yard featured fall blooms of mums and holly. Mrs. Hawkins lives at 1300 N. Burns.

CLUBS

Garden Club

Mrs. Jack Lawhorn, nationally accredited flower show judge from Temple, spoke to the Fleur de Lis Garden Club on growing and grooming house plants for judging.

The club met at the home of Mrs. Bob Schiller with Betty Humble and Jan Luecke serving as assistant hostesses.

Mrs. Lawhorn discussed selection and placement of plants in the home, giving consideration to space, architectural effects and sun-

light requirements. She also discussed trimming and rotating of house plants, grooming them for flower shows, and concluded her program with "house plants are fun because they are never out of season."

The club voted to enter a float in the Cameron Christmas parade with Sandy Wal-thall, Kathy Dodd, Carolyn Cobb and Pat Barrett in charge of arrangements.

Shirley McCutchen, president, appointed a nominating committee of Pam Cro-owe, Judy McDaniel and Ann Roberts.

Amusements

"Tanglefoot Junction" Will Portray Early Temple

"Tanglefoot Junction." That's a funny name for a town. It's also the name of a funny, creative, interesting musical production that will be performed in the Temple High School Auditorium, Dec. 4, 5, and 6 at 8 p.m.

Tanglefoot Junction was what Temple was called before it was incorporated as Temple in 1881. The Bicentennial Commission in conjunction with the Cultural Activities Center has brought those good old days back again.

The show is a series of skits and songs which will portray the history and growth of Temple and the nation. Many of the songs are well-known tunes, but two of them were written and orchestrated in New York, as was

the entire script, exclusively for performance in Temple. Baylor educated Jerry Mc-Lauchlin, now a New York director and choreographer, will direct rehearsals starting the first week of November. The musical will be performed by local talent. They will be accompanied through song and dance by a full orchestra.

Reserve seats can be purchased at the Temple Civic Theatre Box Office beginning November 17, 10 a.m. - 5 p.m. at 2625 South 31 St. For ticket information call 778-4751.

Obituaries

Williams

Roy Williams, 88, of Rockdale, died Saturday in a Temple hospital.

Funeral was at 2 p.m. Sunday in Phillips and Luc-key Funeral Home in Rockdale with burial in Oaklawn Cemetery.

He was a member of the Rockdale Assembly of God Church.

Surviving are one son, Roy Williams Jr. of Brownsville; one daughter, Mrs. Leroy Platt of Cameron; two brothers, Barney Williams and Claude Williams, both of Rockdale; and five grandchildren.

Special Service Set At Churches

Thanksgiving Sunday will be observed at worship services at the Tracy and Cameron United Methodist Churches this Sunday. The scripture lesson will be read from Deut. 8:7-18 and the chancel choir will offer an anthem arrangement of "For the Beauty of the Earth."

The "Show You're Grateful" program will be emphasized this Sunday with the presentation of the stewardship message at the worship service by a lay person. The teams, workers and captains will meet in the fellowship hall at 2 p.m. Sunday to receive their response cards. Members of the church will be visited by these teams Sunday afternoon and during the week.

The first Sunday of Advent will be observed Nov. 30 with special emphasis upon the singing of Advent hymn and the reading of scriptures that deal with the foretelling of the birth of Christ.

All of the members of the church have been provided with Advent Self-Denial folders that will be returned to the church during the Christmas season.

Mrs. Tommy Corley is the choir director at First United Methodist. Mrs. Hilliard Thomas is organist and Fred Hornung is the superintendent of the study program. Church school meets at 9:45 a.m. and morning worship begins at 11 a.m.

Funds Due For Sign Replacement

The Central Texas Council of Governments Traffic Safety Office has been authorized by the Executive Committee to assist local government members in the seven county region to acquire funding through the Governor's Office of Traffic Safety for a traffic sign replacement program.

December 31, 1976, is the deadline for all counties and cities in the United States to conform to the Manual of Uniform Traffic Control Devices which has been adopted by the Federal Government and the State of Texas.

The new international-type system of traffic signs which emphasizes pictures and symbolic signs rather than written messages is the theme for the new program.

The Governor's Office of Traffic Safety Traffic Sign Replacement Program will pay for these signs. The principal objective of the program is to add traffic signs where they are urgently needed and to modernize signs in the small communities. All CTCOG member governments, serviced by the Texas Council of Government's Traffic Safety Office, are eligible to apply for grant assistance under the Traffic Sign Replacement Program.

Completion of this program will promote traffic safety and reduce the cause of traffic fatalities due to obsolete, missing, or improperly installed traffic warning and regulatory signs.

Credit Union Earns Thrift Award

The Rockdale Works Federal Credit Union, Rockdale, earned a Thrift Honor Award for its success in stimulating savings, according to Paul A. Trylko, regional director of the National Credit Union Administration.

The Federal credit union attained a monthly rate of growth of 3.2 percent in share accounts \$20,000 and under. This growth rate was above the average for Federal credit unions of similar size, according to Trylko.

On September 30, 1975, the credit union had 1,139 members who had saved a total of \$889,462. The credit union primarily serves employees of the Aluminum Company of America, Rockdale Works, and of the Rockdale-Sandow and Southern Railroad, a wholly-owned subsidiary, who work in Milam County.

The Federal credit union was chartered in January 1970. T. E. Martin is president of the credit union and Milton B. Curtis is treasurer. Aliene M. York is manager.

The National Credit Union Administration conducts its Thrift Honor Award Program to provide an incentive for officials of Federal credit unions to encourage members with small accounts to save regularly as part of their family financial management plans.

PUPPET SHOW

Someone else is pulling the strings. Someone else is speaking behind the scenes. Someone else is making the audience laugh, or even cry a little.

By any chance, does that remind you of yourself? Do you sometimes feel that you are a puppet, not a person? That someone else is putting words in your mouth, calling your plays?

Well, the Church won't stand you on your own two feet and cut the strings. But it will help you find the right kind of scissors . . . to get a new perspective, to reassess life, and yourself . . . to be your own person.

Who, after all, wants to be the star of a Punch and Judy show?

SPORT SPOTLIGHT

By FORREST GUESS

The Record...

Class has told the athletic story in Cameron. Let's take a look not only at the varsity record, which by the way is super, but a look at the total program.

Coach Roy Knight is in charge of the OJ Thomas seventh grade Yoe Yoes which went 4-5 for the season and calmed the district title.

In the eighth grade action, under the coaching of Roger Williams and James Petty, tied for the district title with a 4-4-1 record.

Another tie for the district title was gained by the freshman team who is coached by Ken Poole. The freshmen ended their season with a 6-2 mark.

The junior varsity claimed an outright title by going 7-2 for the season. The JV team is coached by Paul Hoelscher.

In girls volleyball the seventh grade won their district in Georgetown and the eighth grade came in second. The junior high coach is coached by Linda Swope.

The record is impressive, so let's not forget the history of Yoe athletics won't be a short course but instead a long, long, list of carbon copies of '75.

FLIP or SLIP... Where? Llano! Is that fair? Surely it will help them (Llano). The list went on and on. These are sample questions that confronted the administration and coaches after the flip in Georgetown Saturday morning to decide where the Bi-District game would be played.

The drive of 135 miles went down in utter disfavor by some local fans as the decision was made.

One year ago, it would have been a pleasure to drive 135 miles for the game

after the Yoemen edged in the playoffs. But this year, I suppose we feel a lot different.

I asked Coach Cauley how he felt about playing Llano on their home turf and he said, "We'll play in Llano, Fairbanks, Alaska, or even in Swiney Switch if that is where the Bi-District game is to be determined."

I did have the coach explain where Swiney Switch was.

"We have played half of our season out of town so far on the opponents home field and this is just another one," Cauley said.

The UIL rules state that if a mutual site cannot be reached then the two teams will flip on a home and home basis.

"The only mutual site that we could even get close on was Killeen but they are in the playoffs and Llano didn't want to play on Saturday. So we flipped and we lost the flip," Cauley said. "It's nice to have these kinds of decisions. At least we're in the playoffs."

I agree it doesn't make that much difference when you are the Fighting Yoemen. The only difference is if the fans don't make that "short" drive to see the Number One team in the state. Let's fill the stands with Maroon and Gray and go all the way.

Cauley Said... "I thought the execution of the offensive linemen was real good. Michael White had his timing and confidence back after being injured."

"I was happy that everyone got to play and a number of our sophomores gave pretty impressive performances against Rosebud-Lott."

"Our defense played their usual fine game by covering three fumbles and pulling down four interceptions. It was just a fine night for our offense and defense."

Llano is undefeated in district play with a 8-2 overall record. Offensively their quite similar to us, in that the perfor to run over the passing game."

"They're not exceptionally bit but they are rangy, tall, and quick."

"Curtis Crenwele is a quarterback that they have moved to tailback which is probably their finest player. He is a triple threat; passing, running, and receiving."

"The fastest man on the team is Willie Erwin who has 10.0 speed."

"They have an outstanding receiver, Ricci Shanks. He is their leading receiver and number one target."

"They play real tough defense and the offense is ball control oriented. On top of this they have a fine kicking game."

"We expect a lot of stunting to offset our size and probably a little more throwing."

7th Claims Zone Title

The OJ Thomas seventh grade Yoe Yoes ended their season Thursday night at Yoe Field with a 12-8 win over the Hearne seventh graders. The win entitled the Yoe Yoes to claim the zone championship with a 4-5 overall season record.

It was a shaky victory with Hearne leading the game at the half, but the thoughts of a first zone championship alerted the Yoe Yoes to quick action and fine defensive play.

The Yoe Yoes opened the scoring when they took and scored on their first offensive possession. The TD came on a 20-yard pass from Allen Sapp who threaded the needle to Jasper Harden. The PAT failed.

Hearne then took possession after the kick off and drove across for their touchdown with a successful PAT added on.

As the half buzzer sounded the Hearne seventh graders led 8-6.

The deciding touchdown came late in the fourth quarter when James Mondrik ramled in from 45 yards out. The PAT failed and the Yoe Yoe defense held on to give them the decision, 12-8.

Coach Knight said, "We had several defensive standouts and they included William Harwell, Ines Rangel, Rodeny Fincher, and Jeffery Gelner."

Yoe J V Takes Title

The Yoe High JV wound up their season with the number one finger in the air. Not to be overshadowed by the bang up job of the varsity, the junior varsity took their season in a winning stride ending up with a 7-2 season and the district title.

The Yoe JV took the final hurdle and bounced over Rosebud-Lott JV with a 47-0 district win last Thursday night at Yoe Field.

As the song goes, "turn out the lights - the party's over," the party just began with the Yoe offense skipping

across the goal line like flies to honey.

It was easy to see after the first quarter that the season was to end victoriously when Kenneth Price dashed in from 14 yards out to open the scoring.

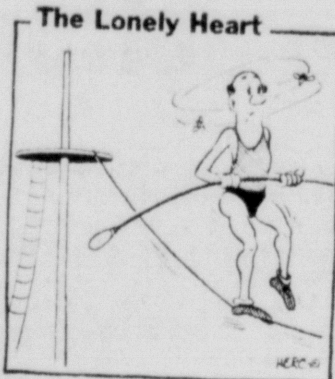

Joe Reyes sprinted in from 35 yards for the second TD in the opening quarter. Eroll Spells outlasted the defensive pursuit dashing to paydirt.

To open the second quarter with a bang, or bomb Bobby Burton connected with Curtis Wise for a 30 yard pass-run touchdown.

Wow! For the second half Gerry Heitman ramled across for the touchdown to make the game completely out of control. Bobby Burton dashed across on a keeper in the third quarter.

The final touchdown for the Yoe JV season was scored by Edward Steamer midway through the final stanza.

It was a convincing win for the Yoe JV and icing on the cake for another Yoe JV football season. The pads were put up forever but the sweet taste of winning will never be forgotten.

Llano Is Undefeated In District

It's nothing new for the Llano Yellowjackets to be in the running for the state championship after gaining some experience in '73 when they filtered down to the state quarterfinals.

Last season Burnett represented that district in the playoffs after squeezing through the district like cotton in a compress. The Llano Yellowjackets didn't forget the memories of a playoff berth.

Their grid standing for district '75 looks like the Yoemen in that the are undefeated with a 4-0 record. The district includes Burnett, Brady, Marble Falls, and San Saba. In district the Yellowjackets have scored 109 points to their opponents 20.

For the entire season they have scored 225 points and their defense holding their opponents to 67.

The district title came down to the wire when they played Burnett last week for the outright title. Atie would have sent the district into a three way tie, with Burnett and Brady.

Llano has 8 defensive and

8 offensive regulars from last season that ended 6-4.

The offensive backs will be moving behind an average weight of 180 pounds and the backs will be the smallest the Yoemen have faced with an average of 150 pounds.

Bruce Ross will be leading the offensive back filling the quarterback slot. Ross works his running game before he will entertain a passing game. Ross will be looking to Ricci Shanks for his prime target when and if the Yellowjackets are forced into the passing game.

The offense will be setting up in the strong set, power I wide slot and the wing formation.

Ross enjoys the opportunity to run and will certainly enter in as a major source for yardage production.

The defense will be containing the Yoemen with an average weight on the front line of 160 pounds, also one of the smaller lines that the Yoemen have faced all season.

The Yellowjacket secondary will be guarding against

the aerial attack with 153 pounds across the back field.

The defense will stunt from the familiar 6-2 alignment and can shift into the 1-3 and the 3-59.

It will be a battle on home field for the Yellowjackets and they will be ready with a balanced offense and defensive attack.

LARRY MAHAN: WORLD'S CHAMPION ALL-AROUND COWBOY

A free sack of Conlee's TOP HAND grain sorghum seed. And a good Buck Knife to open it with. That's my offer.

Larry Mahan

HERE IS WHAT SOME TOP CENTRAL TEXAS MILO GROWERS SAY:

IRA BELL, JR.—BASTROP

I planted Top Hand row and broadcast for the 1975 crop year. Row yielded 4000 lbs. and broadcast 3500 lbs. I've planted Top Hand for 6 years and will plant all of my acreage in it again for 1976.

The combiners say it thrashed real good and cleaned out mighty good. I would recommend it.

E.C. BOECKER—BUCKHOLTS

Top Hand yields as well or better than any other hybrid I've planted and it is constant year in and year out.

FRED RICHTER—THRALL

I like Top Hand because it is constant. It's about the highest yielding hybrid we have found for year after year production.

In 1975 we got a good stand the first time we planted, and several of my neighbors had to replant their competitive hybrids.

IN A WORD—IT'S DEPENDABLE.

MARVIN LENZ—TAYLOR

I plant Top Hand because year in and year out it has been one of the highest producing hybrids I have found. I like the short, sturdy stalks, and excellent root system. After all—a top yield is great but it has to be in the elevator before you can cash it in.

Conlee's Top Hand was the Number One Yields in nine Texas official experimental stations.

Here's a real winner... a free sack of Top Hand with every ten you buy... and, a famous Buck Maskrat Knife for early bookings.

That's my offer. I'm Larry Mahan. I've misjudged a lot of broncs in my time, but there's one thing I'm sure of...

When it comes to making you a bundle of profit, Conlee's Top Hand sorghum is "a cut above the rest".

Top Hand is a yellow endosperm, medium to early maturing hybrid. It's disease and drouth tolerant, and it comes on strong with irrigation.

Top Hand produces big, high quality heads that dry fast, thresh clean. And, it really stays with the Texas weather 'cause it has an extra large root system that's stout as a bull.

Plant Top Hand this season. Convince yourself it'll out perform all the rest. See your seed dealer about my offer right away. A free sack of Conlee Top Hand... and a \$13.00 Buck Muskrat Knife any man would be proud to carry.

See your dealer or call
Conlee Seed, Texas Toll Free 800-792-2215

CONLEE It's a cut above the rest.

In Appreciation-

Mr. and Mrs. J. T. Krull were honored on their 50th anniversary with a dinner and reception at Simon George Hall, given by their children and grandchildren. We would like to take this opportunity to thank all who helped in making it a success.

We want to thank our brothers and sisters, nieces and nephews, relatives, and friends.

We also want to thank Rev. John Geiser.

Mr. & Mrs. J. T. Krull
The faculty and students of the Milano East Elementary would like to express their thanks and appreciation to the many business of the Rockdale, Cameron, and Milano areas who donated money, toys, and candy to the fish pond for our Halloween Carnival held on October 31, 1975. 73-1tc

Card Of Thanks-

We would like to acknowledge all the wonderful gifts and thoughts of all our friends and neighbors during this past week. Alvin, Shirley, Lee, Ted, and Dow Dodd

Farm Bureau Gilt Show Winners Announced

By Kenneth Waites

The judging of the Farm Bureau Gilt Program, sponsored by the Milam County Farm Bureau, took place Monday morning, November 17, 1975. Henry Richter of Cameron was the judge.

The judging was based on number of pigs weaned per litter, average weaning weight, feeding and management, sanitation, disease and parasite control, and record book. Mr. Richter said that over all the feeders did an excellent job and that it was rather difficult to pick a winner.

In the end Jimmy Patin of Thorndale had the first place litter, weaning eleven out of twelve pigs and averaging 46 pounds at weaning. Second place went to Darrell Glaser of Buckholts, third place went to Nathaniel Whitfield of Branchville, and fourth place went to Mike Henderson of Gause.

The Milam County Extension Office would like to extend our appreciation to the Farm Bureau for sponsoring this program for boys and girls interested in swine production and also to Henry Richter for the great help he has given with the judging.

Texas FB Shows Membership Up

Texas Farm Bureau has shown an increase in membership for the 23rd consecutive year, according to Carrol Chaloupka, president of the state's largest general farm organization.

Official tabulations just completed show that the TFB now has 180,470 member families in the organization, an increase of 14,254 over last year's total, Chaloupka announced. The TFB's membership year runs from Nov. 1 to Oct. 31.

All of the 210 organized county Farm Bureau organizations had an increase for the third year in a row, the Dalhart grain and livestock farmer said.

Card Of Thanks

We would like to thank all of the merchants in Cameron, Rockdale, Hearne, Gause, Milano, and Caldwell for their donations for our game table for the Halloween carnival. Your donations were deeply appreciated.

Milano Boosters Club
73-1tc

A note of thanks -- for Mrs. Lelia Murphy. To all friends who contributed food; sent cards; telegrams; florals; visited during her hospital stay; and helped in anyway and to the nurses and doctors at St. Edward Hospital.

James & Laura Petty

Seminar Offered By Local Bank

The First National Bank in Cameron is conducting an Accounts Management Seminar, presented by Bill Strickler, Division of Extension Distributive Education of The University of Texas at Austin, and in cooperation with the Texas Education Agency.

The three-night seminar has been offered on Tuesday, Wednesday and will be held on Thursday, Nov. 18, 19 and 20.

Attendees of the course are earning certificates from the University in Credit Management.

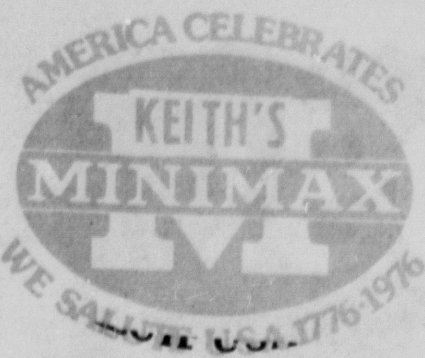

The course is aimed at helping business owners and managers, credit and collection managers, salespeople, and other business employees.
